

We are open as usual to help our patients with their medical concerns. However to keep our patients and staff well and safe during the Corona Virus Pandemic, we have changed how we operate our services.

To ensure your safety we have restricted access to the surgery.

For General Health and Covid 19 related concerns:

- 1 We are currently providing Telephone consultations instead of onsite consultations
- 2 Telephone consultation appointments can be made by phoning the surgery on 01 4922665 as you would when booking an onsite consultation. You will then be given an appointment time which is the time the Dr will call you at to do your consultation
- 3 For Private Patients Payment for Telephone Consultation will be taken over the phone  
For Medical cards holders there is no charge.
- 4 All Covid 19 related Telephone Consultations are free of charge as per HSE directive.

For Vaccinations, Immunisations and Ante Natal care:

- 1 Please phone as normal to organise your regular childhood vaccinations and maternity appointments.

For Repeat Prescriptions orders:

1. Please order by phone and we can organise to have your repeat prescriptions sent to your pharmacy.

Please do not come to the surgery without an appointment.
